

EEOICPA BULLETIN NO.02-02

Issue Date: March 29, 2002

Effective Date: March 11, 2002

Expiration Date: March 29, 2003

Subject: Department of Labor verification of employment at certain facilities

Background: Since the inception of the Energy Employees' Occupational Illness Compensation Program, the Department of Energy (DOE) has been responsible for conducting employment verifications for each claim received by the Division of Energy Employees Occupational Illness Compensation (DEEOIC). For certain atomic weapon employer (AWE) facilities and beryllium (Be) vendor facilities, DOE did not initially have access to personnel records that could verify employment. In order to overcome this difficulty, DOE made arrangements with corporate entities to obtain information concerning past or present employees of particular facilities. These corporate verifiers had access to personnel records that were otherwise unavailable to the government. Using information collected from these corporate verifiers, DOE was able to complete form EE-5. Unfortunately, the DOE was unable to identify a corporate verifier for some of the AWE or Be vendor facilities. For employees who worked at a facility for which there are no employment records and no corporate verifier, DOE has been unable to conduct employment verification.

In an effort to streamline the process of employment verification, the DEEOIC will assist DOE in the process of verifying employment for employees who worked at AWE and Be vendor facilities for which corporate verifiers have been identified. In addition, for those facilities for which the DOE has not identified a corporate verifier and does not have access to employment records, DOL will request employment information from the claimant, and if necessary, the Social Security Administration (SSA).

The DOE has produced three lists naming facilities for which they (1) are unable to obtain any employment verification documentation, (2) have identified a corporate employment verifier or (3) have access to employment records. The CE will reference these lists to ascertain the correct routing procedure for employment verification.

Reference: 20 CFR 30.105

Purpose: To notify the District Offices of the process for verifying employment at certain AWE or Be vendor facilities.

Applicability: All staff.__

Actions:

1. Attached to this bulletin are three lists (Attachments 1, 2 and 3). The lists are designated as follows:

List 1: No Corporate Verifier

This list provides the names of AWE and Be vendor facilities where the DOE has no employment records and has not been able to locate a verifier.

List 2: Known Corporate Verifiers

This list provides the names of AWE and Be vendor facilities where the DOE has identified a corporate entity that owns the facilities' employment records. Moreover, the list will provide specific instructions for how each corporate entity is to be contacted with requests for employment verification.

List 3: DOE Verifiers

This list provides the names of AWE and Be vendor facilities where the Department of Energy, or one of its contractors, owns the employment records, and DOE is able to verify employment directly.

2. Each list should be maintained by the District Office and distributed to all CEs. When necessary, revision to the lists will be transmitted to the district offices in the form of an updated bulletin.

3. Resource centers no longer submit employment verification packages to the DOE. Instead all new claim packages prepared at

a resource center are referred directly to the responsible District Office (DO). Once received by the DO, the case create clerk will input the appropriate tracking data and refer the claim to the appropriate claims examiner (CE).

4. Upon receipt of a new primary claim, the CE is to determine whether a covered condition is being claimed on the EE-1 or EE-2. If there is no indication that a covered condition is claimed, the CE is to develop medical documentation to establish the existence of a covered condition. A primary claim is not to be developed for employment verification unless a covered condition has been claimed.

5. After it is determined that a covered medical condition has been claimed, the CE is to review the employment history provided on the EE-3, Employment History form. For each potential DOE employer, contractor or subcontractor, AWE, or Be employer, the CE will need to determine the course of action necessary to obtain employment verification. This process begins with a comparison of the claimed employers provided on the EE-3 and lists 1, 2 or 3.

6. If the CE reviews the employment history and notes a claimed employer from List 1 or 2, a single copy of the DOE Verification of Employment Memorandum is to be printed out and spindled to the case file (Attachment 4). This memorandum substitutes for the EE-5. The insertion of the memo into the case file record will serve as DOE's response to the claimed employment.

7. For a claimed employer appearing on List 1: No Corporate Verifier, the CE will first review any evidence substantiating the period of employment. This evidence can include contemporaneous evidence, such as wage statements, tax documentation, union records, pension information or affidavits. The CE must determine whether the documentation is sufficient to verify the entire claimed period of employment. It is not necessary for the evidence to be so conclusive as to substantiate the employment beyond all possible doubt. However, the evidence should be of sufficient quality to convince the CE of the validity of the period of employment being claimed. The CE should apply reasonable discretion in weighing any evidence submitted by a claimant.

The CE should be aware of the fact that the amount of documentation required depends on the type of claim. For a claim of beryllium illness, the evidence need only establish the presence of the employee at a designated vendor. Conversely, for

a cancer claim, the CE would need to verify the entire period of employment being claimed. The CE can accept as factual any period of employment for which there is sufficient and reliable documentation.

If the evidence is deficient for any period of claimed employment, the CE is to prepare correspondence to the claimant requesting additional information. Attached to the request should be a blank SSA-581 form (Attachment 5). The SSA-581 authorizes the release of earnings information from the Social Security Administration. The CE should advise the claimant in the cover letter that the SSA-581 should be completed for the reason that it may become necessary for the Department of Labor to obtain earnings records from the Social Security Administration. Once the correspondence is prepared and released to the claimant, ECMS is to be updated with a DE status code.

The claimant should be provided up to thirty days to respond. If after 30 days, the claimant does not produce any new evidence or provides evidence that does not support the period of claimed employment, the CE should prepare the case for referral to the SSA. The CE, at his or her discretion, can grant an extension to the period of time the claimant may take to produce documentation. However, the period of time permissible is not to exceed sixty days.

The package to SSA should include a cover letter requesting SSA to perform an earnings search on the named employee. Attached to the cover letter should be SSA form 581 that indicates the name of the employee, employee SSN, and the years of employment to be researched. In addition, a signed release from the claimant must be attached. Upon release of the package to the SSA, the CE will input code SS.

Depending on the response from the SSA, the CE is to either accept the period of employment as verified or deny the claimed period of employment due to lack of viable documentation. The CE should document receipt of the SSA response by entering code SR into ECMS.

8. For any employer named appearing on List 2: Known Corporate Verifiers, the CE is to review the "Contacting Instructions" provided by the DOE. This is an attachment to List 2 that provides details concerning how a CE is to contact individual corporate verifiers. Each corporate verifier has particular requirements concerning the information to be provided. These

corporations have no obligation to supply information to DOL, as there is no formal contract or payment to them. Therefore, it is important that the CE complies with the instructions listed in the "Contacting Instructions."

It is not necessary for the CE to submit a copy of documentation from the case file to the corporate verifier. Instead, a cover letter providing the details of the request should be submitted. In most instances, the cover letter will include the employee name, SSN, date of birth, employer name and the dates of claimed employment. The CE will input code CS into ECMS, to represent a request for evidence from a corporate verifier.

Once the CE has received a response from the corporate verifier, code CR should be entered into ECMS. Any response should then be reviewed to determine if it is sufficient to verify the claimed period of employment. If the corporate verifier affirms the entire period of employment being claimed, the CE is to accept the period as factual. If the corporate verifier is unable to substantiate the claimed period of employment or can substantiate a portion of it, the CE is to request additional information from the claimant. In particular, the CE will need to advise the claimant that the DOL has been unable to verify employment for certain dates through independent means. Moreover, the claimant is to submit any contemporaneous documentation substantiating employment for any unverified period of employment. Code DE should be input in any instance where the CE is sending an inquiry to the claimant requesting employment evidence. Upon receipt of additional evidence, the CE will review it to determine whether it is sufficient to make a finding accepting the claimed period of employment as factual.

9. For any employer named that appears on List 3: DOE Verifiers, the CE will need to prepare an employment package for referral to the DOE Workers' Advocacy Office in Germantown, Maryland. The DOs should follow the same routine that has been in place for case referrals to the Germantown office. The referral package will contain an EE-5 form with the top portion completed by the CE, a copy of the primary claim form and a copy of the EE-3 Employment History form. The package will then be sent to the Germantown Office for the EE-5 to be completed. ECMS will be updated with the ES status code. When DOE completes the EE-5 and returns it to the DO, the CE should update ECMS with the ER status code. If DOE verifies the period of claimed employment, the CE should accept the employment period as factual. Otherwise, the CE should prepare a request for the claimant to submit any contemporaneous documentation

substantiating the period of claimed employment. ECMS should be updated with the DE status code in this instance. If the claimant is unable to provide reliable evidence sufficient to establish the claimed period of employment, the CE is to issue a finding that employment at the named facility has not been substantiated.

10. Any other employment claimed by the employee should continue to be verified through the appropriate operations center listed on the EEOICPA Claims Routing Guidance list.

Disposition: Retain until incorporated in the Federal (EEOICPA) Procedure Manual.

MEMORANDUM FOR: Peter M. Turcic
Director
Division of Energy Employee Occupational Illness
Office of Workers' Compensation Programs
U.S. Department of Labor

FROM: Steven V. Cary *Steven V. Cary*
Acting Director, Office of Worker Advocacy
U.S. Department of Energy

SUBJECT: Verification of Employment

RECEIVED OWCP
2002 MAR 19 A 11: 04
DIVISION OF EEOICPA
U.S. DOL
WASHINGTON, D.C.

The Department of Labor (DOL) regulations implementing the Energy Employees Occupational Illness Compensation Program Act (EEOICPA) provide, at 20 CFR § 30.105, that after a claimant files a claim under the EEOICPA, the Department of Energy (DOE) shall complete and transmit to DOL a Form EE-5 in which DOE certifies that it concurs with the employment information provided by the claimant, that it disagrees with such information or that it can neither concur nor disagree after making a reasonable search of its records and a reasonable effort to locate records not in its possession. The purpose of this memorandum is to comply with this requirement by informing DOL of certain facilities for which it has been unable to locate any records that would allow it to concur or disagree with allegations concerning employment at such facilities.

Requests for verification of allegations of employment at facilities not on either list should continue to be routed to DOE in accordance with the directions set forth in EEOICPA Procedure Manual (Chapter 2-400). DOE has not received requests for verification of allegations of employment at many facilities on the covered facility list. When claims concerning such facilities are received, DOE will search relevant records and amend the lists as necessary (provided by Roger Anders to DOL under separate cover.)

This memorandum will serve as DOE's Form EE-5 for any claim alleging employment at the facilities set forth on List 1 and List 2.

- **List 1**--The facilities designated as List 1 are facilities for which DOE has no records that would allow it to verify allegations of employment at those facilities, nor has it been able to locate pertinent records not in its possession. DOL will attempt to obtain any necessary verification of allegations of employment at such facilities through means other than DOE records.

Printed with soy ink on recycled paper

- **List 2**--The facilities designated as List 2 are facilities for which DOE has no records that would allow it to verify allegations of employment at those facilities. However, DOE has information concerning other entities that may be able to locate relevant records concerning allegations of employment at such facilities and has made arrangements for those entities to provide information concerning allegations of employment at the facilities on List 2. DOE will separately provide DOL with instructions for contacting the entities specified on List 2. DOL will contact those entities and request that they provide DOL with information concerning allegations of employment at such facilities and that they forward a copy of such information to DOE.

PRIVACY ACT STATEMENT:

Section 205 (c) (2) (A) of the Social Security Act allows us to ask for the information you give us on this form. The information is needed so that the Social Security Administration can quickly identify your record or the record of the deceased individual who is the subject of a request you are making and prepare the earnings statement you want. You do not have to give us this information. However, without the information we may not be able to process your request. The information you provide will be used primarily for issuing the earnings statement you request. The information you provide may be given out if a Federal law requires that we give out the information; if a Congressman or the President's office needs this information to answer questions you ask them; or the Department of Justice needs the information for investigating or prosecuting violations of the Social Security Act.

We may also use the information you give us when we match records by computer. Matching programs compare our records with those of other Federal, State, or local government agencies. Many agencies may use matching programs to find or prove that a person qualifies for benefits paid by the Federal government. The law allows us to do this even if you do not agree to it.

Explanations about these and other reasons why information about you may be used or given out are available in Social Security offices. If you want to learn more about this, contact any Social Security office.

PAPERWORK REDUCTION ACT STATEMENT

This information collection meets the clearance requirements of 44 U.S.C. §3507, as amended by Section 2 of the Paperwork Reduction Act of 1995. You are not required to answer these questions unless we display a valid Office of Management and Budget control number. We estimate that it will take you about 2 minutes to read the instructions, gather the necessary facts, and answer the questions.
